Your mother language is the first language you learned to speak. Some languages are at risk of going extinct. Learn six new words in three languages other than your mother language. Write each word in your mother language on the first line. Write the same word in three other languages on the additional lines.

1: ___________________  2: ___________________  3: ___________________

4: ___________________  5: ___________________  6: ___________________
