FUSION® PARTNERS WITH SEA PRO BOATS TO OFFER SIGNATURE SOUND ON ‘THE NEXT WAVE’

*Entertainment Leader’s Award-Winning Stereos And Speakers Now Available As
Standard Equipment on All 2018 Sea Pro Boats*

Auckland, New Zealand – FUSION®, the worldwide leader in marine audio engineering, announced today its partnership with Sea Pro Boats to offer their industry-leading purpose built marine entertainment systems, Signature Series Speakers and Amplifiers and True-Marine Speakers on all 2018 Bay Series and Center Console Deep V Series boats.

“Sea Pro has been making serious waves with its The Next Wave-branded boats,” said Chris Baird, managing director, FUSION Entertainment. “At Fusion, it’s the next sound wave that we take seriously, and that’s why we are so excited to be able to offer Sea Pro customers our latest and greatest, state-of-the-art stereos and speakers.”

Originally founded in 1987, Sea Pro Boats was purchased by Brunswick Corporation in 2005. In 2015, Jimmy Hancock, one of the original owners of Sea Pro, along with Tidewater Boats’ founder Preston Wrenn, re-launched the company with an all-new incarnation of the Sea Pro brand – ‘The Next Wave.’ The line currently features six models with two new models expected in late 2017/early 2018. Sea Pro Boats are made in America in the company’s 200,000-square-foot Whitmire, South Carolina facility.

“We’re pleased to offer our customers FUSION signature sound for our 2018 model year,” said Hancock. “FUSION stereos and speakers are renowned for their exceptional audio quality and True-Marine design, and we’re confident our customers will get maximum enjoyment from them on the water.”

Designed for the marine environment by some of the finest engineering minds in the industry, Fusion systems are built from the ground up with world class industrial design, high-quality componentry, intelligent and intuitive functionality, and with an unwavering vision of producing exceptional audio systems for those seeking a superior listening experience. With an elegant finish, FUSION systems perfectly blend with the decor of any vessel, are discreet yet refined and suitable for both internal and external installations.

FUSION, the leader in marine entertainment, is dedicated to offering innovative solutions that enhance personal leisure time whether on the water or on the road. FUSION backed by

FUSION® SIGNATURE SOUND NOW AVAILABLE ON ALL 'THE NEXT WAVE' SEA PRO BOATS
