

## Swantown Marina, Port of Olympia, Washington Now Offers ValvTect Marine Fuels

**Buffalo Grove, Illinois, August 30, 2017** - ValvTect is pleased to announce that the long time anticipated Swantown Marine Fueling Station at Swantown Marina in Port of Olympia, Washington is now open for business and has joined the ValvTect family of over 600 certified ValvTect marinas marketing both ValvTect Marine Gasoline and ValvTect Marine Diesel.

Swantown is the seventh largest marina in the state and the center of recreational boating activities in the South Sound.

Swantown Marina, a 733-slip recreational marina and boat haul-out/repair facility is located on the southernmost deepwater port on Puget Sound. The state-of-the-art Fueling Station will be open seven days a week.

Swantown Marina is serviced by Certified ValvTect Marine Fuel Distributor Associated Petroleum which also services the entire greater Puget Sound region.

"The Port is committed to creating infrastructure to support and significantly expand recreational opportunities and regional visitation. This same infrastructure will also broaden the Port's support of commercial maritime activities in the area. Swantown is now a full-service marina, which will not only make access easier for local boaters, but help promote tourism in Thurston County. The fact that we also will operate the most environmentally-friendly facility in

Puget Sound is a particular source of pride. We are proud to partner with ValvTect at our new facility," said Ed Galligan, Executive Director.

Marvin Griffin, President of ValvTect Petroleum Products, welcomes Swantown Marina to the growing network of Certified ValvTect Marinas. "Swanton Marina is a first class marina offering outstanding services and many amenities. We are pleased that local boaters and those traveling to Port of Olympia, WA now have another premier marina to fill-up at with high quality ValvTect Marine Fuels," he said.

More about ValvTect Petroleum Products:

ValvTect Marine Gasoline and ValvTect Marine Premium Diesel with BioGuard are the only gasoline and diesel fuels "specifically formulated" for marine engines and marine operating conditions. ValvTect Marine Fuels are only sold at Certified ValvTect Marinas which conform to ValvTect's stringent quality control requirements. ValvTect Marine Fuel additives are also "specially formulated" for marine engines and available at marinas and marine supply dealers.
