

AQUILA POWER CATAMARANS WINS TWO PRESTIGIOUS INTERNATIONAL AWARDS

CLEARWATER, FL (30 April 2018) – [Aquila Power Catamarans](#) announced today that they have received two prestigious international awards, the “Best Multihull Motor Yacht (up to 50-feet)” at the 2018 Asian Boating Awards for the Aquila 44 as well as the Multihull of the Year award in the Power Multihulls category by Multihulls World for the Aquila 36.

Created by Asia-Pacific Boating and China Boating magazines in 2005, the annual Asia Boating Awards are the most renowned yachting awards in Asia. Presented during a lavish ceremony, the awards serve as a benchmark for the industry in the Asia-Pacific region. This year’s 14th edition was held on April 11, 2018 at ONE°15 Marina, Sentosa Cove, before the beginning of the Singapore Yacht Show which opened the following day on April 12, 2018.

The Multihull of the Year awards, presented by Multihulls World, are unique in that winners were both nominated and voted upon by visitors to the Multihulls World website. At the beginning of December, the list of nominees in each category was made public which opened the voting that took place until the end of March.

“We were thrilled to learn the Aquila 44 and Aquila 36 won these very impressive international awards,” said Lex Raas, President Aquila at MarineMax.

Currently, there are three models in the Aquila lineup – Aquila 36, Aquila 44, and Aquila 48 – each of which is award-winning.

“These awards are a testament to our international approach for our Aquila brand, designed by the renowned J&J team from Slovenia and built by Sino Eagle Yachts of China,” said Frank Xiong, CEO of Sino Eagle Yachts.
