## MCE MARINE GROUP EXPANDS SE ASIA PRESENCE WITH DRAGONSHORE

Strengthening its customer support network in Southeast Asia, MCE Marine Group has added DragonShore Ltd as its newest sales agent and authorized service provider. The Taiwan and Hong Kong-based company represents MCE Marine's line of Newmar chargers, inverters, DC converters and related power control equipment, and ASEA isolation transformers, shore power converters and power management systems.

"Over the past 15 years, our team has worked with Eva Chiu, DragonShore's managing director, on various projects within the marine industry," said David Brown, MCE Marine Group president. "In formalizing this relationship, we have complete confidence in DragonShore's technical knowledge to best serve our customers' needs."

Since 2009, DragonShore Ltd has offered a wide range of technical marine equipment for the recreational yachting and megayacht markets. It acts as a liaison and product expert between boatbuilders and shipyards, their customers, and the manufacturers it represents. Its website is [www.dragonshore.com](http://www.dragonshore.com).

In early 2018, ASEA Power Systems and Newmar DC Power Onboard aligned under the newly formed MCE Marine Group. All operations are headquartered in Huntington Beach, California.
