

**Guy Harvey to Raise Funds for Hurricane Relief Efforts in Florida and Texas**  
***100% of profits from specially designed t-shirt sales***  
***to support Feeding America®***

FORT LAUDERDALE, Fla. - World-renowned artist, conservationist, scientist and entrepreneur Dr. Guy Harvey is supporting hurricane relief efforts in Florida and Texas by donating 100 percent of profits from two specially designed t-shirts to [Feeding America®](#).

There are specially-designed Guy Harvey "Florida Strong" and "Texas Strong" t-shirt designs priced at \$15 each and are available at [www.guyharvey.com/strong.html](http://www.guyharvey.com/strong.html).

Feeding America's mission is to feed America's hungry through a network of member food banks while supporting local communities affected by the hurricanes by securing food and funds, coordinating with local government officials and national organizations and providing as much assistance as possible.

"In the aftermath of these devastating storms, organizations like Feeding America are stretched incredibly thin," said Dr. Harvey. "With the funds we raise, Feeding America can continue to provide the resources needed to help Florida and Texas. We must come together to help those who need it most."
