2 New Hatteras Yachts Making World Debuts at FLIBS

FORT LAUDERDALE, FL (October 24, 2017) – Two new Hatteras yachts will be making world debuts at this year’s Fort Lauderdale International Boat Show Nov. 1-5.

The M90 Panacera motoryacht, the latest model in the Hatteras fleet, delivers panoramic views throughout thanks to wraparound windows , signature skylights and Hatteras’ first fold-out balcony and features the exclusive HattCON ship management system.

“This is not an old-school Hatteras,” said Denison’s Kevin Frawley, referring to the yacht’s contemporary interior. Denison exclusively represents Hatteras Yachts. “Thanks to her massive beam, she has a huge flybridge, the engine room has over 8 feet of headroom, and she cruises at 20 knots even though she weighs over 250,000 pounds fully loaded.”

Hatteras also will launch its GT 45X with Flybridge Option model, a new version of our popular 45 Express with the optional flybridge helm station, in addition to the lower helm.

Other Hatteras models that will be at the Hatteras display at FLIBS, at Bahia Mar's Lime Zone A4, include the M75 and M60 motoryachts and the GT70 and GT63 sportfish convertibles.
