PARKIT360 MOVES LOCATION, DOUBLES FOOTPRINT

Parkit360, manufacturer of innovative battery-powered dollies for boat, RV and general purpose trailers, has moved. Its new address is 130 Industrial Ave., unit 600, Carleton Place, ON, K7C 3T2, Canada. All other contact information remains the same.

"We optimized the layout of our manufacturing space to be more efficient and accommodate planned new product launches," said Stefan Houle, Parkit360 sales and marketing. "Sales have been record-strong and we simply outgrew our space." The 11,000 sq. ft. facility upsize includes company offices and doubles its previous footprint. Earlier in 2017, it added staff to keep pace with corporate growth.

Parkit360 power dollies maneuver trailers around obstacles and tight corners that would be impossible to accomplish with a vehicle. Light and compact enough to fit into the trunk of a small sedan, models accommodate up to 15,000 lb. payloads. A video is at bit.ly/2hOhrDJ.
