
EVO YACHTS FRANCE MAKES ITS DEBUT AT THE PARIS BOAT SHOW AND APPOINTS A NEW OFFICIAL DEALER FOR FRANCE AND CORSICA

Evo Yachts will be landing in the French capital to **take part for the first time in the Paris Boat Show**, from December 2 to 10 at the Paris Expo site. The event represents the market **debut of EVO Yachts France**, the company led by **Jean Marc Bichot**, appointed the new dealer for France.

With his team who all have 20 years' experience in the yachting industry and two operating bases in **Port Fréjus** and **Saint-Raphaël**, EVO Yachts France consolidates the Naples-based yachtbuilder's already vast and close-knit sales & service network, consisting exclusively of reliable partners and structured to deliver an impeccable level of assistance for owners before, during and after sale.

On show in Paris will be **Evo 43' HT in its new *enchanted blue* livery**, one of the shipyard's most recent models, which stands out for its **latest generation full-carbon T-top**. Designed by **Studio Rivellini** and built by Blu Emme Yachts, this 13-meter day cruiser has made a mark on the international yachting scene for its sculpted, streamlined and minimalist lines, associated with technology focused totally on versatility of use and onboard comfort.

Driven by a pair of **Volvo Penta IPS 600** engines (delivering total power of 870 hp), Evo 43' can reach a **top speed of 38 knots** and cruises at 28 knots. In addition to performance, the design criteria underpinning the yacht are soundproofing, simplicity of use and contained consumption, without ever neglecting safe navigation in all conditions.

On Monday, December 4, at 3pm, a press event will be held on board to present the shipyard's new year news and the new French partnership with JMA Yachting.

Evo Yachts will be attending the Paris Boat Show from December 2 to 10
Hall 4, stand B9
