## Four re-certified as Michigan Clean Marinas

**Livonia, Mich., February 7, 2018** – The Michigan Clean Marina Program is pleased to announce four marinas have been re-certified as “Michigan Clean Marinas”; they are Howe Interlakes Marine, Indian River; Edward C. Grace Memorial Harbor, Elk Rapids; Algonac Harbor Club, Algonac; and Bouvier Bridge Marina, Fair Haven. Howe Interlakes Marine, Edward C. Grace Memorial Harbor, Algonac Harbor Club, and Bouvier Bridge Marina have been re-certified for another five-year-term through 2022. Fifty-five Michigan marinas have obtained and are maintaining this prestigious certification.

The Clean Marina Program was initiated to preserve and protect, through voluntary efforts, Michigan's greatest resource, the Great Lakes and its connecting waterways. The certification process begins with a pledge to participate in the program, followed by an online course with an overview of the designation process and a review of best management practices. The facilities then conduct self-evaluations of their environmental practices to determine their strengths and weaknesses. After implementing improvements and reaching a level of competencies, the marina requests a visitation by a CMP consultant to evaluate the facility's environmental stewardship. When the facility reaches established goals, they receive their designation.

"We commend Howe Interlakes Marina, Edward C. Grace Memorial Harbor, Algonac Harbor Club, and Bouvier Bridge Marina for being re-certified as Certified Clean Marinas and for their continuation of following best practices," said Nicki Polan, executive director of the Michigan Boating Industries Association. "More boaters are becoming aware of the program and are searching out these facilities as places they want to patronize." The Clean Marina designation is applicable for a three-year period, at which time the facility must be re-designated.

MBIA encourages all marinas to seek out this certification. "It is not difficult, and there are both financial and environmental gains that come with this effort," said Polan. Currently Michigan has 55 Clean Marinas.

The Michigan Clean Marina Program is a joint program between the Michigan Department of Environmental Quality, Michigan Sea Grant and Michigan Boating Industries Association.
