FALSE CREEK FUELS NOW OFFERS VALVTECT MARINE FUELS

BUFFALO GROVE, ILLINOIS, JANUARY 10, 2019 - ValvTect is pleased to announce that False Creek Fuels in Vancouver, BC has joined the growing number of certified ValvTect marinas marketing ValvTect Marine Fuels.

False Creek Fuels owns and operates the long-standing marine fuel station in False Creek (Vancouver) featuring all new fuel storage tanks, piping and dispensing equipment along with

a completely renovated store. The fuel station is centrally located in Vancouver at the entrance to False Creek and services all types of vessels including sailboats, power boats, commercial fishing vessels, tugs, water taxis and government vessels.

Marvin Griffin, President of ValvTect Petroleum Products, is extremely pleased that False Creek Fuels has been added to ValvTect's growing list of Certified Marinas globally. "In addition to our Certified Marina in the Cayman Islands, we are looking at rapid expansion into the Toronto market this spring, further expansion in the Caribbean with our new strategic alliance with the largest independent fuel distributor on the islands, marinas in Panama and through European production at our sister company, into the United Kingdom," he said.

False Creek Fuels has a simple mission: "False Creek Fuels shall provide the boating public with a marine fuel service that offers boaters unparalleled service with a can-do attitude, great convenience by ensuring we always stock products that boaters want, and by offering great value."

Rick Henson, ValvTect Regional Sales Manager, welcomes False Creek Fuels. "I am proud to have Mike Short and False Creek Fuels as our first branded marina in British Columbia. Mike's passion to provide the finest quality fuels to his customers is demonstrated with his commitment with ValvTect Marine Fuels," he said.

"It is our mission statement that brought us to ValvTect Marine Fuels. Although we have always carefully selected the fuels we sell, we wanted to 'raise the bar' and offer fuels specifically formulated for marine use. We are very excited to be the first Canadian certified Marine Fuel Dock," said Mike Short, CMM, False Creek Fuels Managing Partner.

For more information about False Creek Fuels, call 604-638-0209 or visit the [False Creek Fuels web site](#). For more information about ValvTect Petroleum Products or to learn the name of your nearest Certified ValvTect Marina, visit the [ValvTect web site](#) or call 800-728-8258.

More about False Creek Fuels:

False Creek Fuels was founded in 2011 by Certified Marina Manager, Mike Short (pictured right). Mike has 20+ years' experience in marina management and marine fuels, volunteers with both Boating BC and the Association of Marina Industries and is a life-long boater. False Creek Fuels is a floating marine fuel dock and marine store that sits at the entrance to False Creek, which is a major recreational and commercial boating hub in Vancouver, BC. Our mission is "To offer unparalleled customer service and products of the utmost highest quality whilst respecting our surrounding environment and maintaining the highest standard of safety."

More about ValvTect Petroleum Products:

ValvTect Marine Gasoline and ValvTect Marine Premium Diesel with BioGuard are the only gasoline and diesel fuels “specifically formulated” for marine engines and marine operating conditions. ValvTect Marine Fuels are only sold at Certified ValvTect Marinas which conform to ValvTect’s stringent quality control requirements. ValvTect Marine Fuel additives are also “specially formulated” for marine engines and available at marinas and marine supply dealers.
