

For Immediate Release:

Tampa, Florida – November 10, 2020: OXE Marine largest distributor, Diesel Outboards LLC announced today that Spartan Corporation a Premier Dealer for Diesel Outboards LLC has been awarded a US Government multiyear contract to outfit and support operations in Central America.

The initial order received is for fifty (50) 300 hp OXE Diesel Outboards which has been received and accept today from Spartan. Spartan will also supply the full life cycle support, logistical support and maintenance within the contracted operational area in Central America. In addition, Diesel Outboards LLC will be supplying the C-CRES™ (Containerized Combat Ready Equipment Spares™) as part of the parts/service/spares solutions.

Spartan recently established a new facility to sell and service OXE Diesel Outboards engines in St. Petersburg FL. They will be a fully stocked Dealer offering technical and service support to the surrounding areas.

“Spartan Corp is answering the call to support interdiction operations in Central America to stem the tide of illicit operations in the region. This mission demanded dependable and powerful engines to meet the requirements of peacekeepers. Spartan Corp has chosen the OXE Diesel Outboards to provide engines to meet the challenges of this austere environment to ensure the success of this critical mission”

“We are honored and thrilled to focus our experienced team on building a flagship sales and service operation as new OXE Diesel Dealers as part of the Diesel Outboards family in the Tampa Bay Area. Our team is ready to support the Government, Commercial, and private customers in the region.” Jess Loban Founder / CEO

“We are thrilled to be working with the Spartan team. Together we are developing the market with our OXE diesel outboard motors.”

“All of us have witness the fast evolving marine industry especially with the unprecedented grow of the outboard segment. Now we in production with a proven design the OXE diesel outboards that can run on a large variety of fuels: EN 590, ASTM D 975 No. 1 and No. 2, JIS KK 2204, F54 and F75; approved by the EPA TIER III, IMO TIER II (MARPOL VI TIER 2), RCD and CCS, robust design, low-speed control and quick-shift capability that lead to safe operation in adverse conditions, easily accessible service points and a modular design that create a user-friendly product, patented belt drive allows full range torque transfer capability without affecting the hydrodynamics The belt transmission significantly lowers fuel consumption than a comparable gasoline outboard. The OXE Diesel offers the market unprecedented range enabling users to not only reach further but also giving the ability to refuel from larger diesel-powered vessels or marine-based platforms and the highest torque of any diesel outboard motor(s).

Diesel Outboards LLC a division of the Outdoor Network. At the Outdoor Network LLC, we are a premiere dealer and distributor powerhouse with one goal in mind: to get the user equipped with OEM equipment and parts and keep them running at the best pricing available, whether they need a completely new machine or just the parts in the fastest and efficient time possible. We service both retail and commercial accounts in over 120 countries.

Recognized as two-time winners of Inc.'s Fastest Growing Company Award. We are also proud to boast more than 19,000 5-star reviews on Reseller Ratings for Boats.net and Partzilla.com and recently voted one of the best on-line companies by Newsweek who ranked the top 1,000 shops across eight industries and 39 categories. We never stop and are restless and relentless.
