

## SeaVee Open House

SeaVee Boats Welcomes approximately 800 guests to their new building open house in Medley, Florida on Saturday, February 22, 2020 between 10 a.m. and 3 p.m. The 220,000 square foot building will allow SeaVee to build up to 250 semi-custom boats per year and employ up to 350 people.

Originally founded in 1974 by Miami-native, Captain Don McGee, the company was purchased in 1993 by Ariel Pared, Ralph Torres and Moses Rodriguez. Starting out with only seven employees, the builder has thrived over the last 27 years and the new plant was necessary to combine five other Miami-area company locations and to handle expected future growth expectations.
