

Raymarine®

SIMPLY SUPERIOR™

Raymarine Axiom®+ High-Performance Multifunction Navigation Displays

Smarter, brighter, and tougher than ever

The successor to Raymarine's award-winning Axiom® line of MFDs, Axiom+ is engineered for speed, responsiveness, and future expansion. Available in 7-, 9-, and 12-inch display models, Axiom+ comes performance-tuned with a powerful quad-core processor for fast chart redraws, multi-channel sonar views, and augmented reality navigation.

Designed for excellent viewing in a range of lighting conditions, Axiom+ models feature a bright IPS LCD that is 25 percent brighter than previous Axiom models, resulting in improved clarity and wider viewing angles. Axiom+ also delivers improved touch-screen performance thanks to Raymarine's HydroTough™ ruggedized, nano-coated display, which provides enhanced impact resistance, repels water and oils, and enables accurate touch control in all conditions.

Axiom+ builds upon what boaters love about Axiom MFDs. Four built-in sonar channels – including RealVision™ 3D – deliver comprehensive views of the underwater world, and a next-generation ultra-sensitive GPS/GNSS receiver offers a 4x improvement in sensitivity for accurate navigation, even in challenging installations.

PERFORMANCE TUNED - Designed for speed, responsiveness and future expansion

- Fluid and fast chart redraw with NEW Raymarine LightHouse Charts, plus Navionics and C-MAP
- Smart and intuitive LightHouse 3 OS Dartmouth makes navigating easy

- Powerful quad-core processor, plus increased onboard storage (up to 16GB) for personal data, chart storage and apps
- ClearCruise™ Augmented Reality-capable for smarter navigation decisions

MAXIMUM VISIBILITY – Upgraded IPS display technology delivers charts, sonar, radar and video in stunning color and detail

- HydroTough™ Display: Nano-coated, impact resistant glass repels water, oil and smudges for better viewing and accurate touch control
- 7", 9" and 12" all-weather displays are 25% brighter (up to 1,800 nits)
- IPS display technology delivers wider viewing angles and sharp contrast at twice the resolution of traditional displays

SIMPLY POWERFUL – Better chart plotting, enhanced GPS and 3D sonar

- Next-generation high-performance 10Hz GPS/GNSS receiver with 4X increased sensitivity for accurate positioning
- Available with built-in RealVision® 3D sonar, plus CHIRP sonar, SideVision sonar and DownVision sonar for the most comprehensive views of the underwater world from a single all-in-one transducer
- Ready to expand / network with multiple Axiom displays, radars, sonar, autopilot, cameras, entertainment, and more

Available at Raymarine dealers June 22, 2020

7" Axiom+ starting at \$749

9" Axiom+ starting at \$1099

12" Axiom+ starting at \$2499
