

**FOR IMMEDIATE RELEASE**

**26 North Yachts Appointed as  
Official Uniesse Dealership**

Fort Lauderdale, Fla. (June 29, 2020)- Boutique South Florida yacht brokerage, [26 North Yachts](#), has been selected as the Eastern Florida dealership for Italian-crafted Uniesse Yachts. The appointment includes the East Coast of Florida territory from Fort Lauderdale to Jacksonville.

The new partnership will focus on delivering Uniesse's new [Exuma](#) line to the North American market. The Exuma line evolved from the company's proven Open Series hull, which was originally designed by famed yacht designer Fred Hudson.

At just under 55 feet, the Exuma offers a wide range of options and compelling configurations for the discerning owner. The Exuma series includes ample and luxuriously appointed living spaces and complete fishing and diving capabilities delivering a vessel that can be appreciated by the most experienced yachting families.

"We believe the Exuma line from Uniesse checks all of the boxes on many buyers' wish lists. The top-quality finishes Italian brands are known for combined with their new larger interiors, along with fishing and diving capabilities, it's the perfect boat for both the experienced yacht owner, and their family to enjoy," said Mike Carlson, co-owner of 26 North Yachts.

The Exuma line features four different models, all hand-built in Italy to the highest marine manufacturing standards and features layouts with multiple staterooms and a full range of options which equip the boat for long trips away from home. Each Uniesse Exuma can be built to fit any owner's needs. The first vessel in the line is being delivered to South Florida, with several more currently in-build.

"The Exuma line from Uniesse is designed with unsurpassed luxurious accommodations, ample living spaces, and high-performance that provides superior course handling while underway in all sea conditions" said David Schwedel, Executive Director of Uniesse. "The versatility of the yacht combined with the craftsmanship put into every last detail, along with our exemplary construction make it the ultimate yacht within her range."
