

MASSACHUSETTS KIDS BOATING & FISHING WEEK – June 4 to 12, 2022

The Massachusetts Marine Trades Association (MMTA) is happy to announce that “Massachusetts KIDS Boating & Fishing week” will take place from June 4 to 12, 2022. This important effort encourages and promotes youth boating and fishing events around the state. This will be the fourth year the MMTA has promoted the events and timeframe. Currently there are 5 registered events participating in 2022.

*See the below and attached map for event information

The dates of Massachusetts Kids Boating & Fishing week once again coincide with Great Outdoors Month - A Proclamation on Great Outdoors Month, 2022 | The White House and National Fishing and Boating week - National Fishing and Boating Week Info (takemefishing.org). One of the key objectives for Massachusetts KIDS Boating & Fishing week events is to highlight what boating and fishing industry organizations and businesses offer the kids in our state and to introduce new kids to the water. Approximately 70 percent of adult boaters started boating when they were kids, and the MMTA recognizes that the more kids we can get on the water in a safe and smart manner today, the better off our industry will be tomorrow.
